Maybe even better than free.

File is free to use with no gotchas and no hidden fees. We have no file size limit. filehosting provides an easy possibility for you to send large files to your friends. Any file in any format can be uploaded and downloaded for free. Files can be downloaded from any computer from our high speed servers. Simply upload your file and share the link. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. Alternatively you can choose to share your download links on blogs, forums and social networking sites. The cost of that data transfer is covered by your internet service or the data plan on your phone. Just upload the file you want to share with your friends and we send you a download link to your file. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. You decidewho you want to share your files with. Unfortunately, we can't make that part free. You can give this download link to your friends by mail or instantmessenger. You don't need any special software installed to be able to download your files. There are no restrictions on the number of times a file can bedownloaded. You can upload any type of file (movies, music, documents, images, zip files and more). No account or credit card is required to get started. Filestransferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. This is easy, fast and reliablefilehosting! You don't need any kind of premium-accounts. It is also allowed to link to the download page from websites and communities. So try our free andsimple filehosting service now. If only we could, we surely would! On the other hand, using file can actually save you money. Keep your files private, or sendyour download links only to friends or family. Our service is completely free for everyone. Using file, you can circumvent those limits without paying toupgrade your team chat service. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferredbetween your computer or phone and our servers, then from our servers to your friends device.
