You can upload any type of file (movies, music, documents, images, zip files and more). If only we could, we surely would! On the other hand, using file can actually save you money. You decide who you want to share your files with. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. There are no restrictions on the number of times a file can be downloaded. File is free to use with no gotchas and no hidden fees. It is also allowed to link to the download page from websites and communities. The cost of that data transfer is covered by your internet service or the data plan on your phone. No account or credit card is required to get started. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. You don't need any special software installed to be able to download your files. Keep your files private, or send your downloadlinks only to friends or family. We have no file size limit. filehosting provides an easy possibility for you to send large files to your friends. Just upload the fileyou want to share with your friends and we send you a download link to your file. Your wallet will be none-the-lighter! Just so we're all 100% clear here: Whenyou share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. Simply upload your fileand share the link. So try our free and simple filehosting service now. Unfortunately, we can't make that part free. You can give this download link to yourfriends by mail or instant messenger. Alternatively you can choose to share your download links on blogs, forums and social networking sites. Any file in anyformat can be uploaded and downloaded for free. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Why pay storagefees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be
