Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Any file in any format can be uploaded and downloaded for free. You decide who you want to share your files with. It is also allowed to link to the download page from websites and communities. Unfortunately, we can't make that part free. So try our free and simple filehosting service now. The cost of that data transfer is covered by your internet service or the data plan on your phone. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. Why pay storage fees for a file that you just wantedto send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. You can give this download link to your friends by mail or instant messenger. File is free to use with no gotchas and no hidden fees. You don't need any special software installed to be able to download your files. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. We have no file size limit. No account orcredit card is required to get started. Using file, you can circumvent those limits without paying to upgrade your team chat service. Keep your files private, orsend your download links only to friends or family. Just upload the file you want to share with your friends and we send you a download link to your file. Whenyou use file, you avoid storing the file you're sending in your cloud storage or mail server. You can upload any type of file (movies, music, documents, images, zip files and more). Files can be downloaded from any computer from our high speed servers. If only we could, we surely would! On the other hand, using filecan actually save you money. Our service is completely free for everyone. Simply upload your file and share the link. filehosting provides
